# Teaching and Learning to Support Vulnerable and Disadvantaged Learners Programme

## Programme Rationale

The Education Endowment Foundation provides evidence based guidance suggesting what schools should be doing but does not provide pragmatic support and resources as to how it should be done. This programme bridges that gap and provides an invaluable tool to raise standards of Teaching and Learning for vulnerable and disadvantaged learners.

How do you deliver classroom- based equity for Disadvantaged and Vulnerable Learners?

Good teaching makes more difference to learning than any other factor within all schools and settings, especially for the progress of Vulnerable and Disadvantaged Learners.

Commissioned by the Consortia, for the exclusive use of all schools and settings in Wales, Supporting Vulnerable and Disadvantaged Learners Through Effective Teaching Learning, is a bespoke, comprehensive professional support programme, drawing together evidence-based strategies that will help you enhance and embed effective classroom practice.

This bilingual asynchronous programme launches on 6 February 2023. All you will need to access is your Hwb email.

## Programme Benefits

- Raised standards of teaching and learning for Vulnerable and Disadvantaged Learners across Wales
- Aligns with and supports “Renew and Reform” agenda and “Education in Wales : Our National Mission”
- Consistent high standard of support and equality of opportunity across Wales
- Addresses gap in available resources providing pragmatic, practical support
- Programme suitable for all settings
- Not tied to either primary or secondary, both have equal weighting
- Can be used as linear or non linear programme
- Curriculum agnostic
- Content will remain relevant for at least five years and conceivably well beyond this time period.
- Asynchronous programme
- Accessible on all devices
- Multi-faceted, potential uses include onboarding, staff development sessions, individual senior leader, teacher or whole school use.
